INTRODUCTION TO THE MAJOR

The Applied Mathematics major prepares students to use mathematical concepts to formulate, analyze, and solve real-world problems. Students in the major learn:

- Research, communications, analytical, and modelling skills to develop their mathematical reasoning skills.
- Techniques and procedures to formulate and solve problems in mathematical notation.
- To identify real-world problems as subject to mathematical reasoning and to abstract general principles from the examples.

Visit the Berkeley Academic Guide for more information.

AMPLIFY YOUR MAJOR

- Add a Teaching Concentration to your major and join CalTeach to prepare for a career in education.
- Test your problem-solving skills in the prestigious Putnam Competition.
- Apply to a Research Experience for Undergraduate Summer Program.
- Work alongside a graduate student mentor through the Directed Reading Program.
- Write an honors thesis or execute an independent study project.

HOW TO USE THIS MAP

Use this map to help plan and guide your experience at UC Berkeley, including academic, co-curricular, and discovery opportunities. Everyone’s Berkeley experience is different and activities in this map are suggestions. Always consult with your advisors whenever possible for new opportunities and updates.

ADVISING

The Math advising team serves both declared and prospective majors. Meet with them to discuss major requirements, policies and procedures, helpful resources, enriching opportunities, and much more!

For more information or to contact an advisor, visit math.berkeley.edu/programs/undergraduate/advising.

MAJOR CLUSTERS

The Applied Mathematics major provides students with the opportunity to customize their learning by selecting a cluster pathway. A cluster is an approved concentration of courses in a specific field of applied mathematics. There are more than 15 approved clusters with the most popular being:

- Actuarial Science
- Computer Science
- Economics
- Statistics

More information on approved clusters can be found at math.berkeley.edu. Students can also design their own cluster with the guidance and approval of faculty.

“This rigorous classes helped me think deeply about problem-solving and made me a more analytical thinker.”

– Applied Math Major

CONNECT WITH US

Cal Day
Come to Berkeley’s annual Open House in April for information sessions, campus tours, special talks, and more.

Golden Bear Orientation
Join your peers in the campus-wide UC Berkeley orientation program for all new students.

Events
Attend department events with students, faculty, and staff. Visit math.berkeley.edu for news and updates.

<tbody>
<tr>
<td>Explore your major and college requirements.</td>
<td>Complete the prerequisites and declare Applied Mathematics as your major. Complete the prerequisites and declare Applied Mathematics as your major.</td>
<td>Plan your cluster courses or design your own with the help of a faculty advisor. Apply to complete the Honors Program in Applied Mathematics.</td>
<td>Meet with your major advisor and with your college advisor to verify your completion of all major and college requirements. Register for the department and campus-wide commencement ceremonies.</td>
</tr>
<tr>
<td>Map out a 4-year plan on CalCentral. Get tutoring help from the Student Learning Center or individual tutors. Visit the peer advisor blog to learn about undergraduate life in the Math Department.</td>
<td>Consider a minor or a summer minor and plan your upcoming semesters accordingly. Challenge yourself by taking Honors sections of courses. Meet with your major advisor and with your college advisor to verify your completion of all major and college requirements.</td>
<td>Apply to complete the Honors Program in Applied Mathematics with the help of the Honors Program Advisor.</td>
<td></td>
</tr>
<tr>
<td>Connect and build community.</td>
<td>Engage locally and globally.</td>
<td>Explore study abroad options now, so you can start planning your upcoming semesters. Check out volunteer opportunities on campus.</td>
<td>Build skills and confidence with Job Search Essentials workshops. Attend career and graduate school fairs. Network with professionals from various industries in Employer Information Sessions. Prepare to take exams required for graduate school.</td>
</tr>
<tr>
<td>Discover hundreds of student organizations at Calpalooza student activities fair. Build your community through Math undergraduate organizations. Get a mentor by enrolling in a Mathematics department section of Berkeley Connect.</td>
<td>Discover your passions. Take L&amp;Fs for an introduction to the College. Visit the Office of Undergraduate Research and Scholarships. Enroll in a Freshman &amp; Sophomore Seminar. Compete in the Putnam Competition. Take the MATH 186: Advanced Problem Solving to elevate your success in the Competition.</td>
<td>Tutor students at the Student Learning Center. Intern and study in Washington D.C. with UCDC or Cal in the Capital. Study Mathematics abroad in Moscow, Russia or Budapest, Hungary.</td>
<td>Boost your networking skills by attending events with UC Berkeley alumni. Find full-time jobs and paid internships through On-Campus Recruiting. Update your resume and LinkedIn profile. Apply to graduate and professional school programs.</td>
</tr>
<tr>
<td>Engage locally and globally. Explore study abroad options now, so you can start planning your upcoming semesters. Check out volunteer opportunities on campus. Follow the Mathematics Undergraduate Calendar to stay up-to-date with important events and opportunities.</td>
<td>Reflect and plan your future. Use the Yearly Planner to guide your career path. Join Handshake to find Berkeley-specific internship opportunities and career development workshops. Shadow alumni in the Winter Externship Program.</td>
<td>Meet alumni and learn about their career paths in the Career Connections Networking Series. Conduct Informational Interviews to learn more about different career fields. Attend Internship fairs to find internship opportunities.</td>
<td>Examples gathered from the Career Destinations Survey of recent Berkeley graduates.</td>

**WHAT CAN I DO WITH MY MAJOR?**

**Jobs and Employers**
- Actuarial Analyst, Aon Risk Services
- AI Research Director, Numerate
- Analyst, Kohl’s
- Applications Engineer, Revolve
- Business Analyst, Wayfair
- Data Analyst, Tribe Dynamics
- Data Scientist, Oracle
- Digital Analyst, McKinsey & Company
- Energy Analyst, CA Energy
- Financial Consultant, Deloitte
- Research Assistant, IMF
- Software Develop. Engineer, Amazon Software Engineer, PayPal
- SW Engineer Intern, City & Cty. of SF
- Software Quality Associate, Waymo

**Graduate Programs**
- Accounting
- Actuarial Science
- Artificial Intelligence and Robotics
- Applied Mathematics
- Biomedical Sciences
- Business
- Computational Mathematics
- Computer Graphics
- Computer Science
- Economics
- Electrical Engineering
- Finance
- International Studies
- Neurobiology
- Physics
- Secondary Education
- Statistics
